

Growing Older with Lifelong Intellectual Disabilities: When Dementia is Suspected or Diagnosed

Register at <https://tinyurl.com/ECHO-IDDwithDementia>

This Project ECHO series is a free, practical, case-based education program for health care and social service providers who want to enhance their knowledge, competence, and performance related to the care of people with intellectual and developmental disabilities affected by dementia. Each ECHO session will include a short presentation by a topic expert, followed by a case study submitted in advance by an ECHO participant site, and then open discussion to learn from one another.
